 - (c) Under normal operating conditions, telephone answer time by a customer representative, including wait time, shall not exceed thirty seconds when the connection is made.  - (ii) Excluding conditions beyond the control of the operator, the video service provider shall begin working on "service interruptions" promptly and in no event later than twenty-four hours after the interruption becomes known. The video service provider must begin actions to correct other service problems the next business day after notification of the service problem.

- (iii) The "appointment window" alternatives for installations, service calls, and other installation activities will be either a specific time or, at maximum, a four-hour time block during normal business hours. The operator may schedule service calls and other installation activities outside of normal business hours for the express convenience of the customer.
 - (iv) A video service provider shall not cancel an appointment with a customer after the close of business on the business day prior to the scheduled appointment.

 - (h) Credits for service shall be issued no later than the customer's next billing cycle following the determination that a credit is warranted.
 - (i) Video service providers shall not disclose the name or address of a subscriber for commercial gain to be used in mailing lists or for other commercial purposes not reasonably related to the conduct of the businesses of the video service provider or its affiliates, as required under 47 U.S.C. § 551, including all notice requirements. Video service providers shall provide an address and telephone number for a local subscriber to use without toll charge to prevent disclosure of the subscriber's name or address.
3. As required by Section 67.2692 R.S.Mo., this Section 2.D shall be enforced only as follows:
- (a) Each video service provider shall implement an informal process for handling inquiries from the Village and customers concerning billing issues, service issues, and other complaints. If an issue is not resolved through this informal process, the Village may request a confidential nonbinding mediation with the video service provider, with the costs of such mediation to be shared equally between the Village and the video service provider.
 - (b) In the case of repeated, willful, and material violations of the provisions of this section by a video service provider, the Village may file a complaint on behalf of a resident harmed by such violations with Missouri's Administrative Hearing Commission seeking an order revoking the video service provider's Public Service Commission authorization. The Village or a video service provider may appeal any determination made by the Administrative Hearing Commission under this section to a court of competent jurisdiction, which shall have the power to review the decision de novo. The Village shall not file a complaint seeking revocation unless the video service provider has been given 60 days notice to cure alleged breaches but has failed to do so.
- E. Public, Educational, and Government Access Programming.
- 1. Each video service provider shall designate the same number of channels for noncommercial public, educational, or governmental ("PEG") use as required of the incumbent cable television franchise as of August 28, 2007.

2. Any PEG channel that is not substantially utilized by the Village may be reclaimed and programmed by the video service provider at the provider's discretion. If the Village finds and certifies that a channel that has been reclaimed by a video service provider will be substantially utilized, the video service provider shall restore the reclaimed channel within 120 days. A PEG channel shall be considered "substantially utilized" when 40 hours per week are locally programmed on that channel for at least three consecutive months. In determining whether a PEG channel is substantially utilized, a program may be counted not more than four times during a calendar week.
3. The operation of any PEG access channel and the production of any programming that appears on each such channel shall be the sole responsibility of the Village or its duly appointed agent receiving the benefit of such channel, and the video service provider shall bear only the responsibility for the transmission of the programming on each such channel to subscribers. The Village must deliver and submit to the video service provider all transmissions of PEG content and programming in a manner or form that is capable of being accepted and transmitted by such video service provider holder over its network without further alteration or change in the content or transmission signal. Such content and programming must be compatible with the technology or protocol utilized by the video service provider to deliver its video services. The video service provider shall cooperate with the city to allow the Village to achieve such compatibility.
4. The Village shall make the programming of any PEG access channel available to all video service providers in a nondiscriminatory manner. Each video service provider shall be responsible for providing the connectivity to the Village's or its duly appointed agent's PEG access channel distribution points existing as of August 27, 2007.
